A complete adventure for babies and toddlers. Comprises of two sets of Titchy Tunnels and a Den to extend the play experience. Titchy Tunnels are a must for babies on the move and for promoting gross motor skills in adventurous toddlers. The tubular frames are supplied with different colour panels each including a portal hole style window and a long window providing an exciting environment to crawl through with ability to look out and see in - great for peek-a-boo. Squashy, wipe-clean mats offer a soft surface for a little knees and permit outside use in fine weather.
